

“Simple Steps, Endless possibilities”

# Nature In Our Country

Short Wood Telford UK

Project Number: 2019-1-UK01-KA229-061510

The Nursery 'Nest' children noticed the grey sky and created a sky scape.

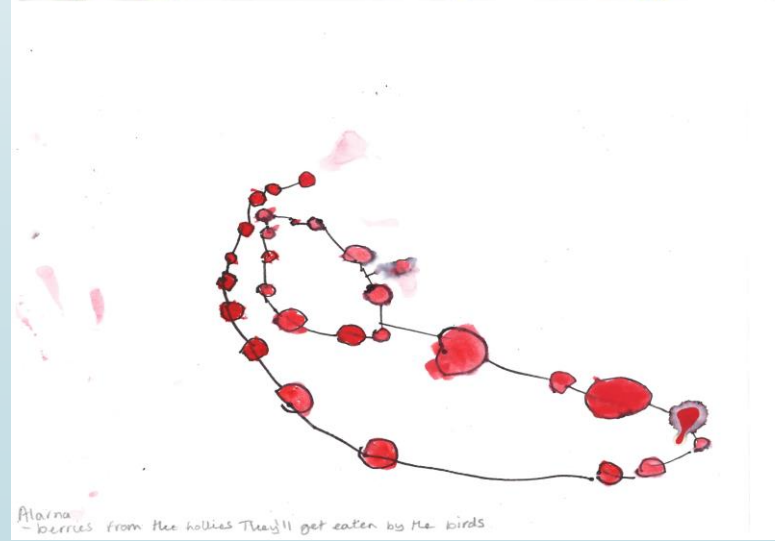

The Nursery children looked at the colours of our pond and the sky.

# Reception Class 1

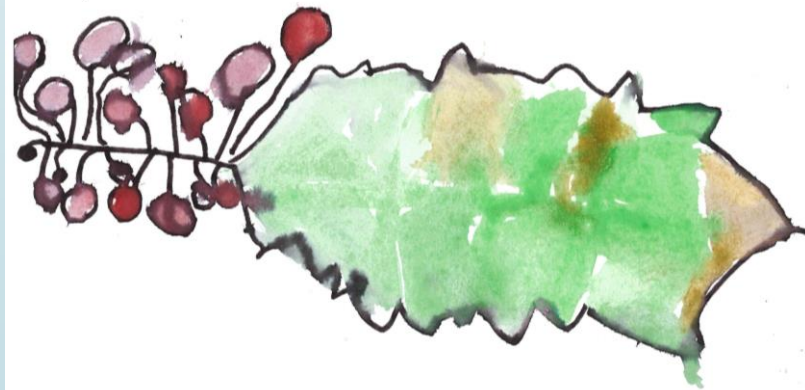

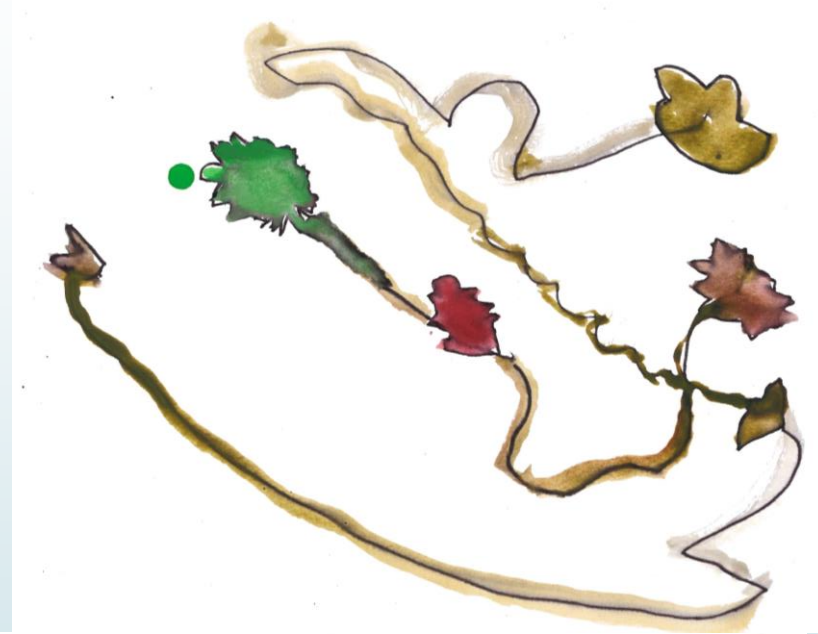

Children collected natural treasures from around school, acorns, leaves, berries and pinecones. They looked closely at the shape and form of each item adding colour with watercolours.

# Reception Class 2

The Children found lots of holly and Ivy in the woods...

## Reception class 3

We went for a walk at our forest school (we call it Squirrel School). We collected natural objects, holly and berries, a stick with moss and a leaf with lots of Autumn colours.
